

QSR Agentic Analytics — System Architecture

Natural language question → multi-agent orchestration → data-backed business insight

Example run

Q: "Which stores have consistently declined in the last 3 months, and what are the key reasons?"

A: 4 stores show 3 consecutive months of revenue decline. Store #21 (Nagpur) is down 18%, driven by falling order counts on Swiggy and rising discount dependency — revenue is being propped up by promotions rather than demand.
